Great, thanks, Jin!

In that case, we'll probably talk through [40 CFR 51.152\(d\)](#) and we may also refer to [Appendix L of Part 51](#). I've included links in case they're helpful.

The Placer emergency episode plan might also be a useful reference.

Best,
Panah

Hi Panah,

4 PM on Wednesday the 10th is fine with us. We will check with the Northern Sierra AQMD. If it is fine with them, I will set up the conference call. For this call, I think it is mainly for you to be there to discuss and answer the questions the District raised (the ones Paul sent to you before).

Thanks,
Jin

Hi Jin,

Thanks for your message. How about 4 PM on Wednesday the 10th? Do you want EPA to discuss particular topics during the call, or do you prefer to just have us there as a resource to answer questions?

That is great to know about Mariposa. Thanks for the update!

Best,
Panah

Hi Panah, Noah, and Rory,

Thanks for the call yesterday on the I-SIP related issues. Do you have some time on July 10 (Wednesday) or July 12 (Friday) to have a conference call with the Northern Sierra AQMD to discuss their Emergency Episode Plan?

Also, we heard some good news from the Mariposa county after the call yesterday. They are currently working on the plan, and they expect to have it done by the end of the summer.

Thanks,
Jin

Paul,

I'm available any time on July 10 and July 12.

Sam

Sam, Jin and I just had a call with EPA and it looks like there may be some options available for you to utilize when discussing emissions sources in the district. We were thinking a call might be helpful with us and EPA to ensure we can cover the options and any questions that may result. If you can let me know when you're available in the next week or so, we can set up a call with EPA.
